Subject: RE: question

I'll send files separately, they are 27 MB for LVP dewatering. Yes, the month change is due to LVP schedule, SNWA had said they thought it would be 1/1/18, but reserved the date to LVP schedule, which was released last week. Now that we have received that schedule we have been scrambling ever since. To that effort, NDEP performed the construction inspection this week, so everything we can do now to speed up the process is being explored.

Carlton

Hi Carlton,

Sure, thanks. We understand NERT is trying to quickly assess the feasibility and cost of shifting the schedule up one month from what the previously understood date was in response to new information from the recent meeting you all had with SNWA. As I mentioned on the call, we would be curious to understand comparatively the feasibility and cost for SNWA/Las Vegas Paving to start 1/1/18.

Alison,
Do you want to see the dewatering plan for Las Vegas Paving for the weir work?

Carlton
